About Percussion Master

Percussion Master is music simulation game requiring timing and a good sense of rhythm. Players each have three drums, one big drum in the centre and 2 smaller drums above.

To add challenge to the game, different symbols fly down the screen that require more than a simple striking of the drum. Additional actions include, needing to strike the edge of the drum not the middle. Double striking the drum. Needing to strike the drum rapidly a set number of times.

The player has a choice of easy, normal, hard and expert mode. The game involves hitting the correct drum at the correct time. Each correct strike raises the meter, if the player makes it over the pass line. The game can continue, if not the game is over.

A bonus feature of this machine is that it can take your picture (with the digital camera built into the header). It will digitally impose this picture on the screen to make you look like a drum superstar.
